

Pulse Picker & Q-Switching Kits

BBO POCKELS CELLS PULSE PICKER KIT

- Robust design
- Hermetically sealed Pockels cell
- Low absorption BBO crystal
- High speed electro-optical shutter

BBO POCKELS CELL KIT FOR PULSE PICKING INCLUDES:

- High repetition rate Pockels Cell driver *see page 3.11*
- Power supply for Pockels Cell driver *see page 3.13*
- BBO Pockels cells *see page 3.4*

BBO POCKELS CELLS PULSE PICKER KIT

Code	Description
PPK-01	for 1064 nm, $\lambda/4$ operation; clear aperture 2.5 mm; repetition rate up to 1000 kHz
PPK-02	for 1030 nm, $\lambda/4$ operation; clear aperture 2.5 mm; repetition rate up to 1000 kHz
PPK-03	for 1064 nm, $\lambda/4$ operation; clear aperture 3.5 mm; repetition rate up to 500 kHz
PPK-04	for 1064 nm, $\lambda/4$ operation; clear aperture 3.5 mm; repetition rate up to 1000 kHz
